TOWN WARRANT

To either of the Constables of the Town of Millbury, in the County of Worcester, Greetings:

In the name of the Commonwealth of Massachusetts, you are directed to notify and warn the inhabitants of the Town of Millbury qualified to vote in elections and town affairs to meet at their respective voting places to wit: Precinct No. 1 at the Town Hall; Precinct No. 2 at the Burbank Street School at Bramanville; Precinct No. 3 at the Memorial High School; Precinct No. 4 at the Dorothy Manor School; and Precinct No. 5 at the East Millbury School, on Saturday, the fourteenth day of March, next, at eight o'clock in the forenoon, to elect the following officers, to wit:

ARTICLE 1. To choose a Town Clerk, Treasurer, Collector of Taxes, Auditor, Moderator, Six Constables, Tree Warden, One Highway Surveyor, all for the term of one year; One Selectmen, One Assessor, One Member of the Board of Health, Two members of the School Committee, One Trustee Public Library, One Cemetery Commissioner, One member of the Board of Public Welfare, all for the term of three years; One member of the Millbury Housing Authority, for the term of five years. And the question "Shall an act passed by the general court in the year nineteen hundred and fifty-nine, entitled 'An Act placing the positions of regular or permanent members of the police department of the Town of Millbury under the civil service laws,' be accepted?"

ARTICLE 2. To choose all other necessary Town Officers for the year ensuing and to meet on March 7, 1959, at 2:00 P.M. in the Town Hall in said Millbury, to act on the following articles, to wit:

ARTICLE 3. To hear the reports of several Town Officers and Committees and act thereon.

ARTICLE 4. To raise and appropriate such sums of money as may be necessary to defray Town Charges for the year ensuing, including sums for the lighting of Streets, the salaries of town officials, the maintenance of the Town Library, the observance of Memorial and Armistice Days, Care and Improvement of cemeteries, care of clocks, care of fire alarm, the use of the Tree Warden, the use of Department of Veterans' Services, salaries of Fire Department, and Police Retirement, Pensions, or take any action thereon.

ARTICLE 5. To choose any Committee or Committees that may be thought necessary.

ARTICLE 6. To see what action the Town will take regarding the hiring of five or more policemen to patrol our streets and to raise and appropriate money for same, or take any action thereon.

ARTICLE 7. To see if the Town will vote to authorize the Town Treasurer with the approval of the Selectmen to borrow money from

time to time in anticipation of the revenue of the financial year beginning January 1, 1959 and to issue a note or notes therefore, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

ARTICLE 8. To see if the Town will vote to authorize the Selectmen to sell, after first giving notice of the time and place of sale by posting such notice of sale in some convenient and public place in the Town, fourteen days at least before the sale, property taken by the Town under Tax Title Procedure provided the Selectmen, or whomsoever they may authorize to hold such public auction may reject any bid which they deem inadequate, or take any action thereon.

ARTICLE 9. To see if the Town will vote to raise and appropriate a sum of money to provide for extraordinary or unforeseen expenditures under the provisions of Chapter 40, Section 6, or the General Laws of Massachusetts, to be known as the Reserve Fund, or take any action thereon.

ARTICLE 10. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money, for the general municipal purposes under authority of, and in accordance with the provisions of Chapter 49 of the Acts of 1933, and amandments thereto or take any action thereon.

ARTICLE 11. To see if the Town will vote to raise and appropriate a sum of money to be used by the Selectmen to settle claims for personal property damage or incidental personal injury claims that may be brought against the Town, or take any action thereon.

ARTICLE 12. To see if the Town will vote to raise and appropriate a sum of money to be expended by the Treasurer for filing fees and the necessary expenses of foreclosing certain Tax Titles now held by the Town, or take any action thereon.

ARTICLE 13. To see if the Town will assume liability in the manner provided by Section 29 of Chapter 91 of the General Laws, as amended by Chapter 5 of the Acts of 1955, for all damages that may be incurred by work to be performed by the Department of Public Works of Massachusetts for the improvement, development, maintenance and protection of the Blackstone River and its tributaries in the Town of Millbury, in accordance with Section 11 of Chapter 91 of our General Laws, and authorize the Selectmen to execute and deliver a bond of indemnity therefor to the commonwealth, or take any action thereon.

ARTICLE 14. To see if the Town will vote to amend Section 8 of Article 3 of our Town By-laws by striking out the figures 200 and substituting therefore the figures 50 so that the same will read as follows:

ARTICLE 3, SECTION 8: Quorum shall be 50 registered voters. or take any action thereon.

ARTICLE 15. To see if the Town will vote to raise and appropriate a sum of money to provide one police officer for traffic duty at all Sunday masses at St. Brigid's Church and Our Lady of Lourdes Church at East Millbury or take any action thereon.

ARTICLE 16. To see if the Town will vote to raise and appropriate a sum of money to replace damaged and destroyed street signs and to erect new signs in the Town or take any action thereon.

ARTICLE 17. To see if the Town will vote to raise and appropriate or transfer from available funds in the Town Treasury a sum of money to be expended in conjunction with any money which may

be allotted by the State or County, or both, under the provisions of Chapter 90 of our General Laws to continue the reconstruction of West Main Street or take any action thereon.

ARTICLE 18. To see if the Town will vote to raise and appropriate a sum of money to be expended by a committee of five citizens, to be appointed by the Moderator, for Christmas decorations for the Center of the Town or take any action thereon.

ARTICLE 19. To see if the Town will vote to instruct the Moderator to appoint a Committee of five citizens to make plans for the observance of the Town's 150th Anniversary, said committee to bring in their preliminary report at the next Annual Town meeting or take any action thereon.

ARTICLE 20. To see if the Town will vote to raise and appropriate the sum of \$706.50 for the purpose of paying unpaid bills of the Town Clerk's Department for the year 1958 or take any action thereon.

ARTICLE 21. To see if the Town will vote to raise and appropriate a sum of money to purchase and erect a new flag-pole at Central Square or take any action thereon.

ARTICLE 22. To see if the Town will vote to raise and appropriate a sum of money to replace the emergency lighting unit located in the Town Hall Building or take any action thereon.

ARTICLE 23. To see if the Town will vote to raise and appropriate the sum of \$5,000.00 to be expended under the provisions of Chapter 91 of our General Laws, in conjunction with funds to be provided by the Commonwealth of Massachusetts, for the purpose of dredging and widening Singletary Brook from Sycamore Street to the Blackstone River, or take any action thereon.

ARTICLE 24. To see if the Town will vote to raise and appropriate the sum of \$1,500.00 to be expended under the supervision of the Board of Selectmen and the Highway Surveyor for the purpose of repairing and replacing the Town street and highway fences wherever necessary, or take any action thereon.

ARTICLE 25. To see if the Town will vote to amend Section 2 of Article 3 of the Town By-Laws by striking out the words "Town Hall" and substituting therefore the words "Meeting Place" so that the same will read as follows: "Article 3, Section 2. At all town meetings the main floor of the meeting place shall be reserved for qualified voters only and no vote either by ballot or other form shall be received by the meeting from any qualified voter seated in any portion of the meeting place other than the main floor," or take any action thereon.

ARTICLE 26. To see if the Town will vote to raise and appropriate the sum of \$1,000.00 to clean and repair existing water holes for fire protection in the Town of Millbury and make them safe as relates to the general public, or take any action thereon.

ARTICLE 27. To see if the Town will vote to authorize the purchase of a pick-up truck for the use of the Highway Department and the trade-in of the old pick-up truck toward the purchase of the new, said transaction to be under the supervision of the Board of Selectmen and the Highway Surveyor, and to raise and appropriate a sum of money for this purpose, or take any action thereon.

ARTICLE 28. To see if the Town will vote to authorize the purchase of a Back-Hoe and Loader with accessories for the use of the Highway Department, said purchase to be made under the supervision of the Board of Selectmen and the Highway Surveyor, and to raise

and appropriate a sum of money for this purpose, or take any action thereon.

ARTICLE 29. To see if the Town will vote to raise and appropriate the sum of \$3,500.00 and transfer the sum of \$2,500.00 from monies to be received by the Town under the provisions of Chapter 718 of our General Laws, to be expended for the following purposes: To resurface and reshape Central Square, to widen South Main Street near the junction of School Street and to install 300 feet of drainage, or take any action thereon.

ARTICLE 30. To see if the Town will vote to amend the Protective Zoning By-Law Map to show the access road to the Massachusetts Turnpike to be 118 feet more or less northwesterly from the center line of Oakes Street to the center line of the Turnpike access road; and further amend the Protective Zoning Bylaw Map to show the access road of the Massachusetts Turnpike running from the center line of Grafton Road, East Millbury, to the center line of the Massachusetts Turnpike in a southerly direction a distance of 2,385 feet more or less, or take any action thereon.

ARTICLE 31. To see if the Town will vote to approve the completed installation of street lights at the following locations—namely

Pole #2 on Hilltop Drive

Pole #13 on Stone Road, West Millbury

Pole #2 on West View Ave. Pole #5 on West View Ave. Pole #3 on Chunis Ave. Pole #2 on Elmwood Ave.

Pole #46 in front of the property of Edward A. Cote on South Oxford Road, West Millbury

Pole #1 on Laura Lane Pole #9 on Linda Ave. Pole #11 on Linda Ave. Pole #3 Maple Lane Pole #4 on Maple Lane

Pole #162 on corner of Millbury Ave. and Linda Ave.

Pole #3 on Rindge Street Pole #11 on Cross Street Pole #15 on West Main S

Pole #15 on West Main Street Pole #22 on West Main Street Pole #26 on West Main Street Pole #30 on West Main Street

or take any action thereon.

ARTICLE 32. To see if the Town will vote to accept Mayfair Drive as a public street for a distance of five hundred and forty-five (545') feet beginning at Riverlin Street and running in a westerly direction or take any action thereon.

ARTICLE 33. To see if the Town will vote to raise and appropriate the sum of \$1,650. for the surfacing of Mayfair Drive for a distance of five hundred and forty-five (545') feet or take any action

thereon.

ARTICLE 34. To see if the Town will vote to accept Mayfair Lane as a public street for a distance of three hundred and thirty seven (337') feet northerly beginning at the southerly line of Mayfair Drive or take any action thereon.

ARTICLE 35. To see if the Town will vote to raise and appropriate the sum of \$540 for the surfacing of Mayfair Lane for a distance of three hundred and thirty-seven (337') feet or take any action thereon.

ARTICLE 36. To see if the Town will vote to accept an extension of Elmwood Avenue as a public street for a distance of three hundred and seventy (370') feet westerly beginning at Border Ave. or take any action thereon.

ARTICLE 37. To see if the Town will vote to raise and appropriate the sum of \$275. To surface an extension of Elmwood Ave. for a distance of three hundred and seventy (370') feet or take any action thereon.

ARTICLE 38. To see if the Town will vote to accept Diane Ave. as a public street for a distance of three hundred and thirty-four (334') feet northerly from Wheelock Avenue or take any action thereon.

ARTICLE 39. To see if the Town will vote to raise and appropriate a sum of money to contract with the Massachusetts Water Company for the installation of one hydrant at the junction of Dorothy Road and Woodrow Road, or take any action thereon.

ARTICLE 40. To see if the Town will vote to raise and appropriate a sum of money to resurface for the width of 25 feet and apply two coats of oil and sand to Jackson Lane, or take any action thereon.

ARTICLE 41. To see if the Town will vote to raise and appropriate a sum of money to surface Leone Avenue with stone and oil a distance of 500 feet from Prospect Street to Miles Street and install one drain, or take any action thereon.

ARTICLE 42. To see if the Town will vote to raise and appropriate a sum of money to resurface 25 feet in width and apply two coats of oil and sand to Maple Lane or take any action thereon.

ARTICLE 43. To see if the Town will vote to raise and appropriate a sum of money to resurface, sand and apply two coats of oil for the width of 25 feet to Linda Avenue, or take any action thereon.

ARTICLE 44. To see if the Town will vote to raise and appropriate a sum of money to surface Budreau Avenue from Prospect Street to Miles Street with oil and stone a distance of 500 feet and install one drain, or take any action thereon.

ARTICLE 45. To see if the Town will vote to raise and appropriate a sum of money to surface Miles Street Extension from Lindy to Leone Avenue with oil and stone a distance of approximately 500 feet and install one drain, or take any action thereon.

ARTICLE 46. To see if the Town will vote to raise and appropriate a sum of money to install a catch basin and a drain on both sides of Howe Lane at the intersection of Howe Lane and Linda Avenue, or take any action thereon.

ARTICLE 47. To see if the Town will vote to raise and appropriate a sum of money to resurface Wilson Road from Millbury Avenue a distance of 420 feet or take any action thereon.

ARTICLE 48. To see if the Town will vote to raise and appropriate a sum of money to surface Prospect Street Extension with oil and stone approximately 500 feet to Leone Avenue, or take any action thereon.

ARTICLE 49. To see if the Town will vote to raise and appropriate a sum of money to resurface, sand and apply two coats of oil for the width of 25 feet to Howe Lane or take any action thereon.

ARTICLE 50. To see if the Town will vote to raise and appropriate a sum of money to widen Upton Street six feet, for a distance of 140 feet, at easterly end, or take any action threon.

ARTICLE 51. To see if the Town will vote to raise and appropriate a sum of money to resurface, oil and sand Upton Street from Millbury Avenue to Epping Street, or take any action thereon.

ARTICLE 52. To see if the Town will vote to raise and appropriate a sum of money to repair existing drain on Maple Street, at east corner of land owned by Frederick F. and Margurite I. Fox, 20 Maple Street, or take any action thereon.

ARTICLE 53. To see if the Town will vote to raise and appropriate a sum of money to install necessary drainage for Linda Avenue in the vicinity of Mr. Godfrey T. Murphy's residence, or take any action thereon.

ARTICLE 54. To see if the Town will vote to raise and appropriate a sum of money to oil Waters Court from Rhodes Street to West Main Street, or take any action thereon.

ARTICLE 55. To see if the Town will vote to raise and appropriate a sum of money to widen and resurface Dolan Road from Davis Road to Sutton line, or take any action thereon.

ARTICLE 56. To see if the Town will vote to raise and appropriate a sum of money to construct 1100 ft. of sidewalk on the westerly side of Milbury Avenue starting at the home of Wilfred Desorcy, or take any action thereon.

ARTICLE 57. To see if the Town will vote to accept Woodrow Road as a public street, or take any action thereon.

ARTICLE 58. To see if the Town will vote to raise and appropriate a sum of money to grade Carleton Road from the residence of Everett Johnson to the Old Common, or take any action thereon.

ARTICLE 59. To see if the Town will vote to raise and appropriate a sum of money to install floodlights at Park Hill Pond near Latti's Farm for night skating, said money to be expended for this purpose under the provisions of a Committee of five citizens of the Town to be appointed by the Moderator, or take any action thereon.

ARTICLE 60. To see if the Town will vote to raise and appropriate a sum of money to contract with the Massachusetts Water Company for the installation of one hydrant on Howe Lane at Pole No. 2, or take any action thereon.

ARTICLE 61. To see if the Town will vote to raise and appropriate a sum of money to contract with the Massachusetts Water Company for the installation of one hydrant on Maple Lane between Poles No. 3 and 4 on property line, or take any action thereon.

ARTICLE 62. To see if the Town will vote to raise and appropriate a sum of money to contract with the Massachusetts Water Company for the installation of two hydrants on Linda Avenue—one between Poles No. 8 and 9 on property line and one at Pole No. 11, or take any action thereon.

ARTICLE 63. To see if the Town will vote to raise and appropriate a sum of money to contract with the Massachusetts Water Company for the installation of one hydrant on Jackson Lane at Pole No. 2, or take any action thereon.

ARTICLE 64. To see if the Town will vote to raise and appropriate a sum of money to contract with the Massachusetts Water Company for the installation of a fire hydrant on Hilltop Drive, specific location to be determined by the Fire Chief and the Board of Fire Engineers, or take any action thereon.

ARTICLE 65. To see if the Town will vote to contract with the Massachusetts Water Company for the installation of one hydrant at

100 Sycamore Street at a location to be determined by the Chief of the Fire Department and the Board of Engineers, and raise and approriate a sum of money therefore, or take any action thereon.

ARTICLE 66. To see if the Town will vote to contract with the Massachusetts Water Works Company for the installation of one hydrant at the summit of Burbank Street at a location to be determined by the Chief of the Fire Department and the Board of Fire Engineers, and raise and appropriate a sum of money therefore, or take any action thereon.

ARTICLE 67. To see if the Town will vote to raise and appropriate the sum of \$370. to surface Diane Avenue for a distance of three hundred and thirty-four (334') feet or take any action thereon.

ARTICLE 68. To see if the Town will vote to raise and appropriate the sum of \$3,300 to widen and grade Heywood Lane a distance of seven hundred and fifty (750') feet or less beginning at Millbury Avenue in an easterly direction or take any action thereon.

ARTICLE 69. To see if the Town will vote to raise and appropriate a sum of money to construct a sidewalk on the westerly side of Howe Ave. from Millbury Ave. to the High Carbon Wire Company or take any action relative thereto.

ARTICLE 70. To see if the Town will vote to authorize the employment of a permanent clerk in the Town Clerk's Office and raise and appropriate a sum of money for the salary of the same or take any action thereon.

ARTICLE 71. To see if the Town will vote to accept Atwood Avenue from Hamilton Street to Howe Avenue as a public street, or take any action thereon.

ARTICLE 72. To see if the Town will vote to accept Sunset

Drive as a public street or take any action thereon.

The Polls will be opened at 8 A.M. and shall be closed at 8 P.M.

And you are directed to serve this warrant by posting up an attested copy thereof at each of the Post Offices, and at the First Congregational Meeting House in Bramanville, at the Fire Station, E. Millbury, at Dorothy Pond Market at Dority Pond, at corner Johnson St. and Park Hill, in said Town, seven days at least before the time of holding said meeting.

Hereof, Fail not, and make due return of this warrant, with your doings thereon to the Town Clerk, at the time and place of meeting, as aforesaid.

Given Under Our Hands, this Fourteenth day of January in the year of our Lord one thousand nine hundred and fifty-nine.

Richard J. Dwinell Frederick E. Lucas William J. Gibson SELECTMEN OF MILLBURY

A true Copy.

Selectmen of Millbury

Attest:

Constable of Millbury

Report of Selectmen

To the Citizens of the Town of Millbury:

The Board of Selectmen presents its report and the reports of the various Town Officers for the year ending

December 31, 1958.

The Board of Selectmen has devoted much time to drawing up an application for the Interest-Free Loan for the Sewerage Survey. We have just about completed all details and feel quite confident that we will receive some \$42,000 from the Federal Government to make this survey. We have also received authorization from the Emergency Finance Board in Boston to expend up to \$680,000 to build and construct sewerage mains throughout the central part of our town.

Many favorable and complimentary remarks have been heard about the newly installed Flood Lights at Howe's Pond on Howe Avenue and Briely's Pond on West Main Street. We wish to thank the committee which consists of Dudley Bowker, Francis McGovern, Arthur Briddon, Harold Briddon, Joseph Cataldo, Thomas Moorey, Joseph Rudzinski and Leo Renaud. We also wish to thank the following for their generous efforts and unselfish support; Marcellus Wissell, A. W. Bowden, Hill Construction, Hospod Construction, Mass. Water Works, Richard Dwinell, George Allaire, Henry Greenwood, Women's Club, Telephone Co. and the Millbury Highway Dept.

The Board recently authorized Alex Johns and Sons to paint the flag pole in Central Square. After examination the pole was found to be decayed and in a hazardous condition. Therefore, the pole had to be removed. Provisions are made in the Annual Town Warrant to provide a suitable

replacement.

For the first time in the history of the Town the Police Department has been insured. This action was taken by the

Board of Selectmen.

Once again we would like to take this opportunity to thank the Common Committee Mrs. Dorothy Kennedy, Roy Army, Ernest Tarbox, Leodore Tebo Jr., and Victor Boufford for the wonderful work they done on the common this year.

Authorization was received at the Annual Town Meeting to purchase a new all-purpose cruiser for the Police Department. This piece of equipment has proved invaluable as

both a cruiser and an ambulance.

Again we feel it most fitting and proper to mention the good work done by the Christmas Decorating Committee. Marcellus Wissell, Harold Freeman, Wilma Ela and Raymond Chevalier and George Stimpson were the members on the Committee. Their good work certainly is an asset to our Town.

The Board met with Mr. Carey, State Dept. of Public Works, The Planning Board, and Chief of Police Vulters about off-street parking, parking regulations, and speed control. As soon as Mr. Carey obtains a copy of the traffic rules and regulations for our town from the State House the

above mentioned will be put into force.

The Housing For The Elderly is progressing according to plans and now thirty-two units are under construction at the Old St. Bridget's Church Site. The Housing Authority John Hamilton, Winfield Scott, John McCrea, Ernest Tarbox, Raymond Whittaker and their executive Director Richard Kenary have devoted a tremendous amount of time

to bring this project into reality.

The Board of Selectmen and Police Chief Vulters are working on a plan to provide more complete coverage for all emergency calls in the Town of Millbury. We find that many surrounding towns have utilized the services of some person who is incapacitated and therefore available by radio or phone at all times. We intend to present a plan such as this for the approval of the people of the Town at the Annual Town Meeting.

The Zoning By-Laws for the Town of Millbury which became effective in May of 1957 seem to be working out quite well. The Selectmen issued 79 permits in the year 1958. A copy of each application is forwarded to the Planning Board and the Board of Assessors. This gives these two Departments a clear picture of the development of the Town.

The Board is very anxious in obtaining more people to work on committees. More Citizen participation is needed.

We wish to take this opportunity to thank all Departments and Department Heads for their cooperation in making this year a successful one for the Town of Milbury.

Respectfully submitted,

RICHARD J. DWINNEL FREDERICK E. LUCAS WILLIAM J. GIBSON

Collector of Taxes

Veterans' Service Department

Honorable Board of Selectmen:

As Veterans' Agent and Director of Veterans' Services, I herewith submit my report of services rendered, financial aid granted, and financial reports for the year ending December 31, 1958.

A total of 500 applications and claims were processed through this office and submitted to the various branches of Local, State and Federal Governments. These applications

and claims pertained to:

Bonus, Burial Allowances, Insurance, Loans, Review of Discharges, Compensation and Pension, Education and Training, Hospital and Clinical Treatment, Headstones,

Taxes, and Financial Aid.

As a result of these claims, in excess of \$81,131.00, in cash awards were received by veterans, and/or their dependents on whose behalf claims were filed. —Of the awards which were made by the Veterans' Administration for pension and compensation, retroactive awards amounted to \$4,362.11, and grants from the Veterans' Administration will continue throughout the year 1959 in most cases, and will bring an additional \$22,681.00 to our veterans and their dependents.

15 men were admitted to the Veterans' Administration

Hospitals for treatment.

I wish to call attention to those veterans of Korean service who have retained their National Service Life Insurance. —Under a law which will become effective January 1, 1959, these veterans will now have the right to convert their insurance to a permanent plan, or to change the type of term insurance to a new plan, which offers drastically reduced prices.

Compensation and Pension payments being received by our veterans, and/or their dependents continue to have a great effect upon our expenditures of veterans' aid by reducing the amount of aid from the Town that they would

otherwise be entitled to receive.

Veterans' Benefits

A total of 130 applications for Veterans' Benefits were processed during the year. Of these, 100 cases effecting 262 people, were approved by this office and sent to the Commissioner of Veterans' Services for approval and re-

imbursement, 17 cases were transferred to other cities or towns for action, and 13 cases were rejected for reason of ineligibility, or income in excess of our approved budgets. A total of \$35,632.77 was expended for Veterans' Aid during the year, and of that amount \$18,038.93 either has been, or will be returned to the general account through reimbursements. Expenditures for 1959 were \$5,837.34 more than in the year 1957.

Our caseload continues to show an increase over previous

I wish to thank your Board for your continued cooperation.

Respectfully submitted,

JOHN M. HAMILTON

Respectfully submitted,

JOHN M. HAMILTON

Road Commissioner's Report

Honorable Board of Selectmen:

I hereby respectfully submit my annual report of Highway Surveyor for the year ending December 31, 1958.

General Highway and Permanent Roads

All streets in town have been given general attention which includes cleaning streets of sand and rubbish, patching streets when needed and this is done by the application of patch, asphalt, and gravel. Due to the severe snow storms of this past year much repatching has been done. Drainage systems have been cleaned and catch basins, culverts and pipes flushed out.

Sidewalks

Necessary repairs have been made to sidewalks which needed immediate attention with money appropriated for this account. Due to the increased need for sidewalk repairs we are asking for an increased appropriation for this purpose.

Oiling Streets

Streets have been given an application of oil where the

need was the greatest. There were some areas which required additional treatment but due to a limited appropriation and the increased cost of oil, we have had to postpone the work on some sections until 1959.

Snow and Ice Removal

All roads have been plowed, sanded and treated with calcium chloride during the storm periods which were unusually severe the past winter. Snow was removed from the business and church areas so that parking conditions might be improved and traffic hazards eliminated. Cemetery roads and the approach to the Town Dump have been kept open at all times. All school areas and bus routes have also been kept open and sanded.

Chapter 90 Construction

New construction on West Main Street includes the widening, grading and resurfacing of the hill section leading to West Millbury center. The most costly feature of this work was due to drainage installations where ledge was encountered during the entire project. A new culvert and drainage was installed on West Main Street in the vicinity of Wheeler Village. This project will be continued during the coming year.

Chapter 718

This project consisted of the widening of Elm Street, removal of trees and construction of a sidewalk on the northerly side of the street. This project will also be continued this spring.

McCracken Road

This road has been widened and surfaced with Type I surfacing for a distance of approximately 3,000 feet.

Alpine Street

This street has been widened, graded and resurfaced with the proper drainage facilities installed.

I want to thank the Board of Selectmen for their fine cooperation and support.

Respectfully submitted,

LEVI J. CHASE

Report of the Board of Public Welfare

To the Selectmen of the Town of Millbury:

The report of the Charlton Home Farm Association will

be found on another page of this book.

As the Town Auditor's report gives you full description of our expenditures, reimbursements and financial report we will not repeat at this time, but will only give you an itemized list under each category of assistance, showing where and how, our appropriation was spent in giving aid to the needy persons who were eligible during the past year.

Our caseload under General Relief consisted of the follow-

ing cases with settlements as shown:

52 cases with Millbury settlements 5 cases with no settlements (state)

13 cases with Out-of-town settlements

10 cases with Millbury settlements living elsewhere

21 hospital cases with Millbury settlements

These cases were aided due to the following reasons: insufficient income; persons not eligible for any other category of assistance; unemployment; waiting periods for social security payments; chronic and temporary illness; desertion and non-support; incompetency, etc.

On all categories of assistance the basic budget figure is now increased 25.7% due to the increase in the cost of living as reported by the Division on the Necessaries of Life.

DISABILITY ASSISTANCE

Seventeen (17) disability cases were taken care of this year and the money expended for this care is taken out of our General Relief appropriation. Persons aided under this type of aid are disabled and unable to be employed and not eligible for Disability Assistance under the Federal Disability Insurance law. A few cases were closed during the year as they did become eligible to receive social security benefits as a result of the 1958 amendments.

Listed below is the itemized list of expenses given these

disabled persons:

AID TO DEPENDENT CHILDREN

During the year we aided 42 cases which consisted of 145 persons under this type of aid. (parents and children)

These children become eligible for this aid due to the loss of parential support or care due to the death of a parent, deseration, divorce, separation either legal or by agreement, incapacitated parent, commitment of a parent to a penal institution, permanent absence of the father of an illegitimate child, etc.

Listed below is the itemized list of expenses for aid given under this assistance:

OLD AGE ASSISTANCE

Our Old Age Assistance caseload during the year consisted of the following cases:

98 cases with Millbury settlements 26 cases with No Settlements (state) 19 cases with Out-of-Town Settlements

12 cases with Millbury settlements living elsewhere This type of aid is a big expense to our department as expenses increase continuously on medical, hospitalization, boarding and nursing homes. The Nursing Home rates were again increased effective Jan. 1, 1959, and the hospital rates were also increased effective Jan. 1, 1959.

Report of the Engineers of the Fire Department

To the Board of Selectmen:

The Engineers appointed by your board met and organized as follows:

William D. Horne—Chief Daniel H. Lemieux—1st Assistant Kenneth Army—2nd Assistant Joseph Reeves—3rd Assistant and Clerk Walter Swift—4th Assistant During the year Number 1 Company answered 49 alarms, 15 of these were false and 2 were still alarms. Number 2 Company answered 39 alarms, 13 of these were false and 3 still alarms. Number 3 Company answered 23 alarms, 12 of these were false and 6 were still. Number 4 Company answered 22 alarms, 2 of these were false alarms and no still alarms. Number 5 Company answered 30 alarms, 4 of these were false and 4 were still alarms.

Our loss is as follows:

Value of buildings	\$134,500.00
Loss on buildings	29,900.00
Insurance on buildings	207,000.00
Insurance paid on buildings	27,000.00
Value of contents	111,000.00
Loss on contents	91,000.00
Insurance on contents	78,200.00
Insurance paid on contents	72,500.00

The equipment of the Fire Department consists of the following:

Number 1 Company—One Seagrave 750 gallon pumper, 2,650 feet of $2\frac{1}{2}$ inch hose, 500 feet of $1\frac{1}{2}$ inch hose, 500feet of booster hose, 30 feet suction hose, two reels, one $2\frac{1}{2}$ inch double gate, three nozzles for $2\frac{1}{2}$ inch hose, one $1\frac{1}{2}$ inch fog nozzle, two 1½ inch nozzles, two booster nozzles, two 1½ inch double gate, two electric lanterns, 14 rubber coats, 14 helmets, one acid extinguisher, one 21/2 gallon pump can, one E. & J. resuscitator, two axes, one first aid kit, two sets (right and left adapters), one 5 inch adapter, one 5 inch double adapter, 1 foamite, one twenty-four foot ladder, one twelve foot ladder, one foamite nozzle, one rubber blanket, one crowbar, 2 hydrant wrenches, one 10 foot pikepole, one smoke mask, one Ansul dry chemical, 4 hose spanners, 1 four inch double siamese, one reducer (four and one-half to two and one-half inch), three cartridges, fifteen gallons of foamite, two cylinders for E. & J., and a two-way radio.

Number 2 Company—One Seagrave 750 gallon pumper, 3,200 feet of $2\frac{1}{2}$ inch hose, 550 feet of $1\frac{1}{2}$ inch hose, 500 feet of booster line hose, 30 feet of suction hose, two $2\frac{1}{2}$ inch double gates, one $1\frac{1}{2}$ inch double gate, four $2\frac{1}{2}$ inch nozzles, one 4 inch double siamese, one $2\frac{1}{2}$ inch female siamese, one fog nozzle, two $1\frac{1}{2}$ inch nozzles, one rubber blanket, 15 rubber coats, 14 helmets, one deck gun, one first aid kit, three axes, two electric lights, one cable cutter, one

pump can, one crowbar, one pike pole, 3 hydrant wrenches, one coupling replacer, one hydraulic Jack, 6 spanners one reducer from four inch to $2\frac{1}{2}$ inch, two reducers (two and one-half to one and one-half inch), one twenty-four foot ladder, one twelve foot ladder, one C.O.₂ extinguisher, one chemical, one foamite chemical, two nozzles for booster pump, one tool kit, one signal light, one-half carboy of acid, two $2\frac{1}{2}$ inch siamese, a new automatic tape recorder to register location of fire, a two-way radio, one cellar nozzle, and one first aid kit.

Number 3 Company—One Ford Combination Hose and Pumper, 350 gallon booster tank, 1,150 feet of $2\frac{1}{2}$ inch hose, 200 feet of $1\frac{1}{2}$ inch hose, 200 feet of booster line hose, 30 feet of suction hose, one C.O.₂ extinguisher, 1 round strainer, one $2\frac{1}{2}$ inch suction connection, 11 pump cans, one 20 foot aluminum extension ladder, one 14 foot aluminum roof ladder, one 10 foot aluminum pole ladder, 6 pair boots, 11 rubber coats, 1 gas mask, 12 helmets, 1 first aid kit, 1 pike pole, 1 axe, 1 crowbar, 4 flashlights, 1 flare light, three $2\frac{1}{2}$ inch nozzles, one $1\frac{1}{2}$ inch nozzle, one $2\frac{1}{2}$ inch siamese, one $2\frac{1}{2}$ inch siamese, one $2\frac{1}{2}$ inch siamese, 4 spanner wrenches, 1 battery charger, 1 (2 H.P.) siren, 1 cabinet heater, one radio, and 1 Scott Air Pack.

Number 4 Company—One Seagrave sixty-five foot aerial ladder truck, one 50 foot ladder, one 35 foot ladder, one 28 foot ladder, one 24 foot ladder, one 18 foot ladder, one 16 foot ladder, one 10 foot folding ladder, one smoke mask, one inhalator, two C.O.² extinguishers, 1 Miller pump can, 1 Ansul dry chemical, two electric lanterns, 300 feet of $\frac{3}{4}$ inch hose for booster pump, 400 feet of $\frac{21}{2}$ inch hose, 350 feet of $\frac{11}{2}$ inch hose, 4 rubber coats, one first aid kit, 4 rubber blankets, 3 axes, 1 safety belt, one $\frac{21}{2}$ inch nozzle, one $\frac{11}{2}$ inch nozzle, 6 pike poles, 2 hammers, 1 deck gun, one 1500 volt electric lighting system, 100 feet of $\frac{1}{4}$ inch rope and one radio.

Number 5 Company—One Ford pumper, 2 Ansul extinguishers, 36 feet of $4\frac{1}{2}$ inch suction hose, 1000 feet of $2\frac{1}{2}$ inch hose, 500 feet of $1\frac{1}{2}$ inch hose, 300 feet of booster hose, one booster nozzle, two $2\frac{1}{2}$ inch nozzles, one $2\frac{1}{2}$ inch siamese, one $2\frac{3}{4}$ by $1\frac{1}{4}$ inch siamese, one $4\frac{1}{4}$ by $2\frac{3}{4}$ inch reducing coupling, one $5\frac{1}{2}$ inch coupling, one $2\frac{1}{2}$ inch female coupling, one $2\frac{1}{2}$ inch male coupling, one axe, 1 crowbar, 1 pike pole, 1 attic ladder, one 14 foot ladder, one 36 foot extension ladder, 1 Scott Air pack, one dry cell searchlight, 14 coats, 12 helmets, 5 pump cans, one set of chains, 2

hydrant wrenches, 4 spanners, one radio, and one battery charger.

One very important thing every home owner should do is to learn the location of the nearest fire alarm box and use it as this gets all fire apparatus and firemen on the way to the fire immediately.

We have a new relay system installed at the police station. When using the telephone in case of fire, dial UN-5-4913

and the fire alarm will be sounded immediately.

Respectfully submitted,

WILLIAM D. HORNE, Chief DANIEL H. LEMIEUX KENNETH L. ARMY JOSEPH H. REEVES, Clerk WALTER W. SWIFT

Board of Fire Engineers

Report of Millbury Public Library

To the Honorable Board of Selectmen.

We herewith submit our annual report for the year 1958, the Librarian's report included.

To the Trustees; As Librarian of the Millbury Public

Library I submit the following report.

The Library has been open 270 days during the year, number of books purchased during the year totaled 650.

The Classification of the circulation is as follows:

Fiction—12,137 Juvenile—7,663 Non-Fiction—5,135 Magazines—1,430

The total circulation for the year was 26,365.

A set of books was added to the Library this year which included Science, Government, Chemistry, Economics, Literature, History and Physics.

In the month of February we held an exhibit of Dolls from all the countrys of the world. They were loaned to us

from all the countrys of the world. They were loaned to us by the New England Dairy and Food Council of Worcester. In observance of National Library Week, a collection of

old Town Reports, Records and Historical Papers contributed by local townspeople were placed on display.

Art Week was observed by a Hat Show, sponsored by the Millbury Woman's Club. Mrs. Marion Phelps, Chairman.

We wish to express our sincere appreciation for gifts received from the various organizations and friends.

Books of Fiction—Mrs. E. F. Hull and Mrs. Gordan

Henshaw.

Books for Juvenile reading—Mrs. Arthur Despard, Barry Moore, Miss Susan Henshaw, Miss Norma Curtis, Miss Mildred and Ronald Bertheaume.

Books of Non-Fiction—The Millbury Womans Club.

The Book entitled "The Miracle of Lourdes" was given by St. Brigid's Woman's Club in Commemoration of the One hundredth anniversary of our Lady of Lourdes.

The National Geographical book of Dogs was given to the

Library by Mr. W. W. Windle of Sutton and Millbury.

Book Marks were sent in for the use of our readers by the Perry Funeral Service.

Magazines were given for the year by Mrs. Gordan Hen-

shaw.

Report of Board of Health

To the Honorable Board of Selectmen:

Our Board has adopted the rules and regulations relative to substandard housing and minimum standards of fitness for human habitation passed by the legislature in 1954 and adopted by the Massachusetts Department of Public Health, Division of Sanitary Engineering in 1955.

In the future upon investigation sub-standard housing will be condemned and shall not be occupied as a human habitation without written permission of the Board of

Health.

Majority of complaints investigated by our Board this year were for causes of inadequate sewage disposal. No sewage system is to be installed unless a permit has been obtained from the Board of Health. Sewage systems are not to be open for cleaning unless person doing work has first obtained a license from the Board of Health.

One new Tuberculosis patient was admitted to Worcester

County Sanatorium.

Clinics were held for the immunization against Diphtheria, Whopping cough and Tetanus. 1447 shorts were administered with 283 children receiving first shots. A Clinic was held in June for vaccinating pre-school children against Smallpox.

Contagious diseases reported:

Whooping Cough 21 Influenzel Chicken Pox 207 Meningitis 1

Dog Bite	51	Streptococcal	
Infectious		Meningitis	1
Encephalitis	1	Mumps	7
German Measles	40	Salmonellosis	7
Infectious		Scarlet Fever	1
Hepatitis	1	Tuberculosis	1
Measles	362		

Licenses and Permits issued for 1958:

3 Nursing Homes

2 Nursery Play Centers

2 Overnight Cabins

2 Dairies for pasteurization of Milk

19 Methyl alcohol licenses

5 Licenses to open and clean cesspools or Septic tanks

69 Permits for New Cesspools, Septic Tanks, Filterbeds or new concrete covers.

71 Plumbing permits

3 Licenses for Funeral Directors

Respectfully submitted,

FREDERICK P. ELLIS, Chairman LOUIS H. BALLARD, Agent WALTER A. WELDON

RUTH H. LAGERHOLM

Town Clerk

Report of Millbury Housing Authority

Gentlemen:

The year 1958 proved to be one of the busiest encountered

by the authority.

At the annual town election in March, Winfield W. Scott was re-elected for a five year term. At its next meeting, the authority appointed its officers for the year. John M. Hamilton continued as chairman, John J. McCrea as vice chairman, Ernest T. Tarbox as treasurer, and Raymond J. Whittaker as assistant treasurer.

In November, John M. Hamilton resigned from the authority having served as a member since the authority

was formed in 1949. Mr. Hamilton had served as chairman of the authority since 1950.

Immediately following his resignation, he was appointed to act as liaison man between the authority and the contractor engaged in constructing the project for the elderly.

Frank E. Kawolis of South Main St. was appointed by the chairman of the State Housing Board to fill out the unexpired term of Mr. Hamilton. Winfield W. Scott was then selected to serve as chairman until the authority's annual meeting in March 1959.

Veterans' Project 200-1

The veterans' project continues to run with a minimum of trouble. Compliments have been received from representatives of the State Housing Board on the neatness of buildings and yards. These compliments reflect favorably on each tenant who has the responsibility of maintaining his own lawn, walks etc.

Further evidence of the industry of these tenants is the project of Norman Saucier, a tenant since 1950. Mr. Saucier undertook the task of clearing land of Mrs. Mabel Moore located at the northwest corner of the project. He then built several fireplaces and picnic tables from materials provided by the authority, and completed his work by laying out areas for horseshoe pitching and other games. Several mothers then banded together to raise money for equipment.

The sincere thanks of the authority is extended to Mr. Saucier for his work and to Mrs. Moore for her generosity in allowing her land to be used by project children.

In 1958 average rents paid by tenants were \$44.74 per month. Rents outstanding at the end of the year amounted to \$45.50. The Commonwealth of Massachusetts assisted with its annual subsidy of \$7,875.00. This amount enable the authority to reduce its outstanding notes by \$4,000.00, pay \$900.00 to the Town of Millbury in lieu of taxes, pay a rate of 2.84% on its notes, and continue to maintain an attractive project.

For the first year since its construction no vacant units were available for occupancy. The authority however still maintains a waiting list of almost a dozen veterans who hope to obtain housing.

During 1958 only one contract was awarded—that one to the Howe Petroleum Products for heater maintainance.

The following is a summary of the accounts for this project for the year ending December 31, 1958:

Bank Balance—December 31, 1957 Millbury National Bank Second Bank of Boston	\$3,335.11 9.00	
Income for 1958 Rents collected Insurance dividends Transfer from 667-1 account Premium from 11th series notes State subsidy Miscellaneous income	\$13,421.00 6.17 329.80 2.96 7,875.00 73.00	\$3,344.11
		\$21,707.93

Project maintenance	426.30
Miscellaneous service	44.75
Insurance—current and prepaid	949.19

Housing for the Elderly Project 667-1

Having received a report from the Department of Public Health on recommended sanitation facilities, the authority began to make definite plans for the construction of the long-awaited project for the elderly.

The firm of Wendell Phillips Associates of Milford which had been temporarily engaged as architects for this project, resigned because of prior commitments. The authority then hired Joseph Paley, construction engineer, of Boston as the new architect.

Mr. Paley designed a 32 unit project containing four 2-story buildings—two of six units and two of ten units. All buildings are to be heated by gas-fired forced hot water furnaces. Each of the units will consist of a bedroom, bath, living room and kitchenette combination, plus a large walkin closet. Electric ranges, refrigerators, and a master antenna system will be provided in all apartments.

In addition to the above, one building will have a full cellar in which there will be recreational areas, washers and dryers for clothes, and maintenance space.

With the acceptance of the project drawings, the authority advertised for bids on construction of the project late in August. The lowest bid—for \$343,000.00—was received from the firm of Fred J. Findlen and Sons of Dedham. The authority signed a contract with this company early in September.

Francis McGrath of West Main St. was selected by the authority to act as Clerk of the Works at the project.

At this writing work is progressing satisfactorily. Three buildings are well underway and the fourth will be started in the spring. Apartments are expected to be available for occupancy during the summer. Applications will be ready for the public in March.

The following is a list of disbursements for this project for the first four months of development:

Payroll—administration	180.00
Legal service—administration	147.41
Travel Expenses	387.80
Office expense	8.87

Photography	88.15
Advertisements	259.55
Fiscal fees	145.55
Bond counsel fees	87.67
Architects fees	8,770.00
Borings and test pits	231.50

HAROLD L. BLANCHARD LAWRENCE J. FARON ROLAND W. DUNN

Report of Forest Fire Warden

To the Honorable Board of Selectmen:

I hereby submit my report of the Forest Fire Depart-

ment for the year ending December 31, 1958.

Because of the exceptionally wet season we had, this department was called to fewer fires in 1958 than in previous years. The total of fires is as follows:

Brush fires 9 Dump fires 3

The forest fire truck is also being used in connection with

the Fire Department in cases of emergency in all outlining districts.

The equipment we have on hand in this department is as

follows:

350 ft. $1\frac{1}{2}$ in. hose	5 3/4 inch snatch box
1600 ft. $1\bar{1}/8$ in. hose	1 portable forest fire pump
1 complete set national	1 soda acid chemical
Standard Adapters	2 15 ft. tow chains
13 2½ gal. water cans	250 ft. of 1 inch rope
1 hydraulic rescue kit	2 wool blankets
5 Indian pump cans	1 CO ² 20 pound extinguisher
3 search lights	1 24 ft. ext. ladder
1 ½ inch nozzle	1 12 ft. roof ladder
1 International 4 wheel	1 400 gal. water tank
drive truck	

Expenses for the year 1958.

Salary of Warden	\$100.00
Labor	150.00
Clerical Hire	8.00
Tools and Equipment	253.00
Hose and Hose Connectors	826.66
Gas and Oil	97.17
Canvas Cover for Fire Truck	54.50
Repairs to Equipment	46.68

Total Respectively,

\$1,536.01

F. A. LECLAIRE

Forest Fire Warden

Town of Millbury

Report of Auditor

I am herewith respectfully submitting my annual report for the year ending December 31, 1958.

Auditor

Report of Dog Officer

To the Honorable Board of Selectmen:

I herewith submit my report for 1958

Stray dogs picked up	57
Complaints investigated	14
Dog bite cases investigated	42
Bodies of animals picked up on highways	45
Livestock damage \$24	.00

Dogs must be licensed April 1st of each year. The license tag must be attached to collar or harness. Report lost dogs to Dog Officer giving the tag number.

Respectfully submitted,

RUFUS W. COLBY,

 $Dog\ Officer$

Planning Board

Honorable Board of Selectmen:

The Planning Board herewith submits its annual report for the year ending December 31, 1958.

Open meetings have been held regularly on the second and fourth Monday of each month throughout the year.

The Board has made many inspection tours throughout the town. These inspections have included existing and proposed streets, parking conditions, and proposed subdivisions. The Board has prepared and posted in the Selectmen's Room a street condition survey map.

In cooperation with the Police Department, we are pres-

ently operating a traffic accident spot map.

Recommendations for amendments to our existing traffic regulations have been prepared and will be forwarded to the Board of Selectmen for their consideration.

The Board has approved 25 applications and plans, including one sub-division, as required by the laws governing

sub-division controls.

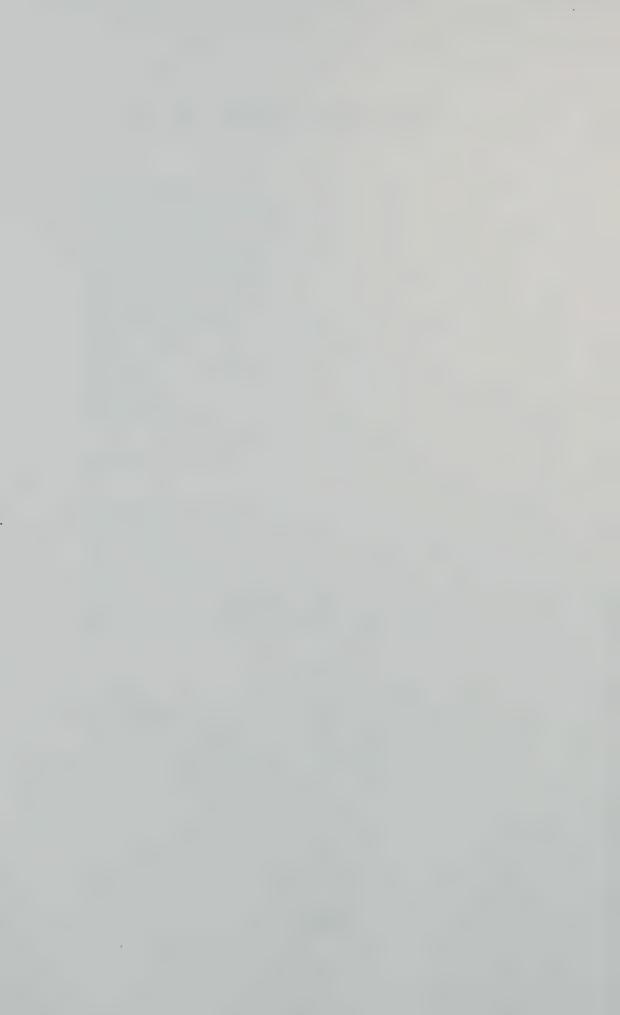

Representatives of the Board has attended hearings for variances from the zoning laws. The zoning by-law has been reviewed by the Board. An article to clarify the location of the Massachusetts Turnpike on our zoning by-law map has been inserted in the forth coming Town Warrant.

It is apparent that sub-division activities are increasing in Millbury, and we feel that regulations set up by the Plannng Board will reflect on the future growth of the town. We wish to thank all who have assisted us in the

past year.

Respectfully submitted,

ROBERT E. BLAIR, Chairman RAYMOND T. ROACH, Clerk FRANCIS E. FINNEY GEORGE A. MALO FRANCIS X. MAGUIRE

ANNUAL REPORT

of the

SCHOOL COMMITTEE

of the

Town of Millbury

For the Year Ending December 31, 1858

IN MEMORIAM

HONORA E. KINNIERY

Died September 13, 1958

Teacher from September 1925 to September 1958 Millbury—September 1925 - June 1931 Chicopee—September 1931 - June 1955 Millbury—September 1955 - September 1958

Graduated Millbury High School—1921 Graduated with Bachelor of Ed. Degree at Worcester State Teachers College—1925 Received M.A. Degree at Clark University—1930

Teacher at Millbury Junior High School—1925-1931 Teacher at Millbury Memorial High School—1955-1958

To her pupils she gave unstintedly with a sincere interest, a considerate patience and a sympathetic understanding; she was a person of the highest character and principles.

Grades I-II: 8:45 to 11:15 A.M., 1:00 to 3:00 P.M. Grades III-VI 8:45 to 12 M., 1:00 to 3:00 P.M. High and Junior High Schools: 8:15 A.M., to 2:05 P.M.

Report of the School Department

To the citizens of Millbury:

The School Committee herewith submits its annual report for the year ending December 31, 1958.

The year 1958, even though recognized as a recession year, has witnessed increasing costs for the many items covered by a school budget. The vocational educational account which includes the Worcester Trade Schools was more than doubled in 1958. This item is just one of many which the Committee faces at budget time. Paper, books, pencils, fuel, salaries, etc. are all costing more in a mounting inflationary spiral.

Effective January 1, 1958 each teacher started on an adjusted salary. This adjustment was requested by the Millbury teachers in order to compensate the experienced teacher, the teacher who entered the teaching profession years ago when the beginning salaries were very small. It is planned to carry out this adjustment in three equal yearly increments effective January 1, 1958, 1959 and 1960. Also during 1958, the State Legislature, which is making a continuing practice of voting minimum salaries for Massachsetts teachers, voted a minimum salary of \$3,600.00 effective November 26, 1958. Each teacher's salary was adjusted accordingly on that date.

A new sick-leave schedule for teachers was established which allows 10 days per year cumulative to 40 days total.

Several new appointments were made during the year as follows:

Janitor—Industrial Arts Building—Lawrence Gonyea Caretaker—Windle Field—Raymond Aubin Janitor—Providence Street School—Charles Howard

Open House, an annual event now in our schools, was held in November and was well attended by interested parents.

Much necessary new equipment including desks for Burbank, Union and Center Schools was purchased during the vear.

A great deal of maintenance work has been carried out including the exterior painting of the Junior High and Providence Street Schools, re-building of an entire foundation wall and installation of a new fire escape at East Millbury, as well as major repairs to the slate roof of the

Center School, and installation of a new blacktop sidewalk at Burbank School. A complete list of maintenance projects and new equipment is itemized on the following pages.

The State has returned the amount of \$99,365.93 for the year 1958. This amount is returned to the Town Treasury, not to the School Department.

An additional bus trip was begun this year to minimize overcrowding in our school buses. New laws have been passed which are limiting the number of pupils per bus in certain of the grades. Since Millbury is a bus town, it is evident that soon an additional bus will have to be added to take care of our increasing school population.

The athletic field at the Memorial High School, which was built at the same time as the high school, is proving to be quite unsatisfactory due to insufficient drainage and a rough stony surface. It is planned to remedy this situation just as soon as economic conditions warrant such a move. It is planned to install a drainage system and to resurface the entire football field. Football games are to be played at Windle Field until the Memorial field is reconditioned. A goodly sum of money will be necessary to do this job right.

The Committee was proud to congratulate Jan Moren for the winning of the Worcester Federal Savings and Loan Association Essay Contest, and Bruce Owen and Richard Nadolink for winning first prize and honorable mention respectively in a regional level science contest and also Bruce Owen for winning first prize on a national level. Also to be congratulated is Horace Mann student, Nancy Hamilton.

During the year the Elementary Schools Survey Committee has had many meetings and has had plans for the proposed new Junior High School approved by the State Building Assistance Commission which provides 50% of the building funds. Even though our schools are presently overcrowded, due to the recession, these plans were not presented to the town at a special town meeting during 1958. In early 1959, if business conditions continue to improve, a town meeting will be called for this purpose and the proposed building plans will be presented to the townspeople for approval. It is tentatively planned to erect the new junior high immediately adjacent to the present high school building with a connecting passage in order that high school facilities such as gymnasium, cafeteria, shop, etc., will be available to junior high pupils as well. As planned, enlargement of the present cafeteria and shop will be necessary.

The Survey Committee, which is composed of Arthur L.

Stowe, Chairman, M. Pearl Lacouture, Secretary, Frederick R. Heidtmann, Roy Wahlstrom, Walter Swift, Richard Dwinell, Walter Dolan and George Ryan does request that all parents attend this special meeting in the interest of their children's education. The last special town meeting gave overwhelming approval to the procuring of preliminary plans for this junior high building. It is only with your continued interest and approval that we will be able to build facilities to equal those already present in many of our neighboring communities. For the sake of our children, let's give them the right facilities and tools in order that we may provide our share of the scientists, engineers, teachers, nurses, doctors, etc., necessary to keep the United States of America on top.

As stated in our previous reports, school operation is big business. Successful operation could not be accomplished without the cooperation of the Superintendent, principals, teachers, school department workers, parents and townspeople. The Committee thanks everyone for the kind cooperation given it during the past year.

School Committee

Report of Superintendent of Schools

To the School Committee:

I respectfully submit my twenty-first annual report and the sixtyeighth in the series of reports of the Millbury School Superintendents. 'Junior High School Facts' issued by the United States Department of Health, Education, and Welfare, summarized the outstanding possibilities of the junior high school as follows:

"It was originally organized to bring some form of secondary education to more boys and girls. It was designed to bridge the gap between the elementary school and the regular four-year high school. A major purpose of the junior high school has been to provide try-out courses and guidance services to youth in order to help them plan intelligently their educational future. It was organized to provide special building facilities and equipment calculated to encourage a wider variety of youth activities, and to retain youth in school. The junior high school has offered a special opportunity to recruit and develop teaching staffs-both men and women-competent to deal more effectively with young adolescents during this development period. This new institution has always promised much needed improvement over the 8-4 type of school organization."

In 1932 there were 387 junior high schools in the country. In 1952 this number increased to 3,227. According to the U. S. Office of Education, more than one-third, 35.8 percent, of all secondary schools in

Massachusetts are junior high schools.

Educators list many advantages for the junior high school system. It responds more perfectly to the special needs of children from 12 to 14 years of age. It emphasizes pupil activities, eases the shift from the elementary school to the full-departmentalization of the senior high school, gives the pupils guidance which is lacking in the elementary schools, and can provide for individual differences in pupils.

Perhaps the advantage which most concerns us in Millbury is that a junior high school would give us greater flexibility in building management. It would relieve crowded conditions in both the grammar and high schools. With the seventh and eighth grades and the first year of high school accommodated in the proposed junior high school, our rapidly growing school population should cause no further build-

ing worries for several years.

At the Massachusetts Conference on Education held at the University of Massachusetts in 1952, it was concluded that 'In most communities the most effective organization of the school system is the 6-3-3 plan, but there is need to evaluate this in terms of the needs of special communities.' It would seem that the needs of Millbury

point to the desirability of a junior high school.

Today education is important news. Some of us have always held this opinion; now many seem to be agreeing with us. Sputnik has focused the attention of all on developments and problems which are not new, but complex and difficult. The categories into which these seem to fall are: pupils and space for teaching, teachers and their salaries, inflation and taxes, and the curriculum. Our purpose is to spend a few moments to see how Millbury schools are affected by them.

Although we have not had the spectacular growth of some of our neighbors, we have, none the less, grown steadily in pupil population over the past ten years. We have 560 more children in our schools now than in 1948. Of these, 394 are in the grades, one through eight, and 166 are in the high school. High birth rates of the 1940's brought the present increase into our schools, but the records show that the

birth rate for the past six years has been even greater.

Plans are being drawn, however, to provide space for seventh, eighth and ninth grade pupils in a new junior high school. The acceptance of the plans by the citizens of Millbury and the erection of this new building will relieve our present overcrowded condition in grades 5-12. It will also permit us to transfer our pupils who now attend classes in the Parochial School to the Center School. The erection of the new junior high school building is the first step in a master plan which has the approval of the Massachusetts School Building Assistance Commission.

The question of having enough adequate teachers for our pupils arises naturally from the increase in classrooms. Competition from other lines of work and an over-all smaller supply of available young people, are other contributory factors. There are just not enough persons graduating from college with training as teachers to fill the vacancies each year. It is noticeable, however, that the towns which pay higher salaries, thus raising the prestige and economic position

of teachers seem to obtain and retain teachers more easily.

Despite the fact that Millbury has increased teachers' salaries, it has not done as much as many other cities and towns. Our salary schedule now starts below the minimum allowed by law, whereas for many years we have been above it. Our maximum salary at present is lower than that of most of our neighbors. We are not, at present, in a favorable position salary-wise to attract new teachers or to induce any to remain with us who may be willing to leave. Since teachers' salaries make up more than two-thirds of the annual school budget, their increase is closely associated with increased school costs. Greater costs, whatever their cause, mean greater taxes for the operation of any public service. In Massachusetts the major portion of school cost is paid for with local real estate taxes. More children, more classrooms, more teachers, inflationary trends—all have meant greater local taxes. Until our tax experts can agree and convince people of some other, more equitable, tax system, there seems to be no escape from heavier real estate taxes.

The problem of what to teach in our schools has been ever present even though not so much in the spotlight as at present. At this

moment there is much discussion on mathematics and science. In the final analysis, our task is to find ways and means to improve our educational system to meet the needs of our modern scientific world without endangering our present system based on democratic ideals. Let us recognize, however, that in the high school particularly, finding good teachers in these important subjects is increasingly difficult. It will do little good to know what we should teach if those who can do the job are not available to us.

Horace Mann Pupils

During the year we were pleased to add the name of the following pupil to the Horace Mann honor roll in the Millbury Memorial High School: Nancy Hamilton.

As usual many people and organizations have helped the schools during the past year. To all of them we are grateful and two of them we wish to mention especially—the Mothers Club at Dorothy Manor School and the Parent-Teacher Association.

The usual tasks and daily challenges of operating a school system have been met as usual. We shall continue to do so with the cooperation of a dedicated staff and devoted School Committee.

Respectfully submitted,

WILLIAM D. SHEA

East Millbury

Superintendent of Schools

June 20, 1958

Report of Mr. Stephen Beaton High School Principal

The recession and the satellite seem to have unwittingly joined forces. Both have caused a great deal of attention to be focused on education. The recession has brought clearly once again to the attention of the American public the need of better scholarship to procure and to retain a position in the business world. The satellite points to the need of more specialized training in the fields of mathematics and science.

So much has been said and written concerning the talented student, and what should or should not be incorporated in our math and science courses, that a great deal of confusion exists. However, under the leadership of such men as Dr. James Bryant Conant, president of Harvard University and Dr. Howard F. Fehr, professor of mathematics, Teachers' College, Columbia University, most of this confusion is now disappearing and an organized reasoning seems to be developing. Atention is now being focused, not only on the areas of mathematics and science, but on the languages, social studies, and guidance.

In fact, it seems reasonably certain that the pupil preparing for higher education will, in order to meet the demands of the "new look," be required to take from nineteen to twenty-three or more subjects in his four year period, rather than the sixteen required at present. This, of course, will mean about a twenty to twenty-five percent increase in the number of teachers needed to meet these

added demands.

What are we doing in the Millbury Memorial High School to meet this new tomorrow? First, let me state that if the trends follow the course they are now taking, only a few changes will be needed to meet the math, science and social studies requirements. In so far as the languages are concerned, at least one additional year must be anticipated and a greater emphasis placed on the oral, aural phase of language teaching. We are undertaking the latter part at present. In the field of guidance much is being done. At present we have elevated the guidance director from part-time to full-time, and a very intensive program of testing, remedial reading, and vocational and educational counseling is being undertaken. In addition to this, many of our teachers are planning to take courses under government grants, in such fields as science, languages and guidance. We feel that it is a little early to state that any definite conclusions have been reached as to what should be the positive program of the future, but we feel that you can be assured that when it is reached, we shall be ready to incorporate the changes into our curriculum.

The enrollment in the Millbury Memorial High School at the beginning of this year was 484. This was an increase of seventeen over the previous year's enrollment. It is quite evident that we will be over the five hundred mark by not later than 1960. This will mean that in so far as our present setup is concerned, we will have reached our capacity, and that either our present four year system will have to be changed to three, or many of our present facilities replaced with classrooms.

There were four changes and one addition made to the high school faculty this year. We lost the valued services of Mr. Richard Greene, Miss Honora Kinniery, Miss Adrienne Lachapelle and Mr. Thomas McGinn. Mr. Richard Greene, who taught Commercial Geography and Consumer Economics, left us to take up a position in the Worcester School System. The untimely death of Miss Honora Kinniery caused us to lose, not only an outstanding teacher but a sincere friend. She was a teacher who was dedicated to her profession, never shirking the slightest duty, and ever generous with her time and assistance. We shall all, teachers and pupils alike, miss her very much. Miss Adrienne Lachapelle, who taught Spanish and English, left us to become Mrs. Frank Kallen. Mr. Thomas McGinn, teacher of chemistry, physics and general science, left us to take up a position in the Worcester School System. Mr. Greene's position was filled by the transfer of Mr. Philip Philip, who was formerly instructor of boys' physical education and driver education. This vacancy was filled by the appointment of Mr. Hudson Matson, a former Millbury High

graduate, and a graduate of Springfield College in the class of 1957. The position of teacher of United States History, left vacant by the decease of Miss Honora Kinniery, was filled by the substitute appointment of Mr. Edward Cronin, a graduate of Holy Cross College in 1954, who has been working for his master's degree in history at Clark University. The position of teacher of Spanish, left vacant by the resignation of Miss Lachapelle, was filled by Mr. Victor Morano, who also became teacher of Latin when Miss Mary Grogan was made a full time Guidance Director. Mr. Morano is a graduate of Holy Cross College, class of 1958. The position of teacher of chemistry, physics and general science, left vacant by the resignation of Mr. Thomas McGinn, was filled by the appointment of Miss Joan Shea, a former Millbury High graduate, who graduated from Our Lady of the Elms in 1951. Miss Shea served as a substitute teacher in Shrewsbury High School in 1957 and a substitute teacher at South High School, Worcester, in 1958. The increased enrollment in the high school necessitated the appointment of an additional teacher to the English department, and this position was filled by the appointment of Miss Elizabeth Walsh, a graduate of Emmanuel College in 1958. To those who have left us, we wish to thank you all for jobs well done, and to those who have been newly appointed, may we welcome you and wish you many successful and happy years as members of our faculty.

The prizes and scholarships annually awarded to the members of the graduating class were as follows: Miss Patricia Turgeon received the D.A.R. Good Citizen Certificate for outstanding characteristics of good citizenship; Robert Perry was awarded the Rensselaer Award and Medal for outstanding achievement in science and mathematics; Miss Joan Molt received the first prize in the New England High Carbon Wire Essay Awards, Robert James received second prize, and Miss Barbara Maguire received third prize. Prizes were money awards of one hundred dollars, fifty dollars, and twenty-five dollars. The scholarship awards were the following: Miss Joan Molt was presented the two hundred dollar Millbury Woman's Club Scholarship by Mrs. Edwin White, club president; Miss Margaret Faron and William Erickson were presented the Millbury Parent-Teacher Association Scholarship of one hundred dollars each by Mrs. Chester O'Leske, association president; Robert James was presented the Millbury Credit Union Scholarship of one hundred dollars by Mr. Paul Lacouture, president; Nicholas Anastation was presented the American Legion Auxiliary Scholarship of one hundred dollars by Miss M. Pearl Lacouture, chairman of the scholarship committee; Leo Gravel was presented the Millbury Memorial High School Scholarship of one hundred dollars by Miss Claudette Anger, president of the junior class; Miss Joan Molt and Russell Hagberg were presented the Millbury Memorial High School Faculty Scholarships of one hundred

dollars each by Mr. Stephen Beaton, principal.

We wish to welcome, to our ever growing list of donors, the New England High Carbon Wire Company and its senior essay contest, and the American Legion Auxiliary and its scholarship. To the above donors and presenters we wish to express our sincere appreciation for these generous gifts.

For the fourth consecutive year the *Reflector*, in competition with hundreds of other high school magazines, was awarded "First Place" by the Columbia Scholastic Press Association; also for the second successive year the *Reflector* was given a "Class A" rating by the New England Press Association. At the same time, for the second consecutive year, one of our seniors, Miss Kathleen Prendiville, was

chosen as a finalist for a full four year Boston University tuition scholarship. Last year's finalist, Miss Joan Molt, finished as first alternate. So once again, our many thanks for a job well done go to Mr. Hamilton, Miss Marlborough, Miss Pronski, and to the members of the *Reflector* Staff. May we also congratulate both Miss Joan Molt and Miss Kathleen Prendiville for the honors they have won.

On Friday, March 19, 1958, Millbury Memorial High School held

On Friday, March 19, 1958, Millbury Memorial High School held its Science Fair under the supervision of Mr. Thomas McGinn, head of the science department. The Science Fair is sponsored by the Worcester Kiwanis Club, Inc., and the judges of the Fair are selected by this organization. Miss Joan Molt with her entry dealing with hydroponics and Normand Fisette with the Van de Graaff generator were declared the winners, with William Thompson receiv-

ing honorable mention.

Further honors were brought to the Millbury Memorial High School and to two of its freshmen when we received word that Bruce Owen and Richard Nadolink were Science Achievement Awards winners. Richard Nadolink received a certificate for winning honorable mention in the New England district. Bruce Owen received a fifty dollar Savings Bond for winning an award in the New England district and a one hundred dollar Savings Bond for winning a national award covering the United States, Alaska and Hawaii. The above awards were presented at a school assembly by Professor Roy Bourgault, Associate Professor of Metallurgy at Worcester Polytechnic Institute, and also Educational Program Chairman for the Worcester American Society for Metals. Our sincere congratulations to the two boys for these signal honors.

During the past year the Worcester Savings and Loan Association ran an essay contest on the subject of "Thrift." This contest was open to all pupils, public, parochial and private schools and academies in Auburn, Boylston, Grafton, Holden, Leicester, Millbury, Paxton, Shrewsbury, West Boylston and Worcester. Once again the pupils in the Millbury Memorial High School brought high honor to their school and to themselves. Jan Moren, a freshman, won the grand prize in competition with 2,500 pupils. His award was a permanent trophy plus one year's scholarship at either Assumption College, Clark University, Holy Cross College, or Worcester Polytechnic Institute—or five hundred dollars. His winning essay was "Savings are Essential to Our Economy." In addition to this, two other pupils, Miss Joan Molt, a senior, and Miss Jacquelyn Beaton, a freshman, won honorable mention awards of ten dollars each in the senior division. Miss Natalie Ann Zykowski, a sophomore, was selected by the judges to receive a special award of ten dollars. It is with a great deal of pleasure that we offer our congratulations to these pupils for the excellent showing they have made and for the honors they have brought their school.

On Tuesday, October 21, 1958, Millbury Memorial High School ran its first Career Night. Nine schools and colleges were represented; and everyone—the college and school representatives, parents, and pupils—proclaimed it a decided success. The program and detailed report of this may be read in the report of our guidance director, Miss Mary Grogan. However, I wished to mention it in my report in order that I might thank Miss Grogan who so competently did all the planning and arranging. I would like to thank, also, Mrs. Jane Dakin, and her girls for the the excellent manner in which the coffee hour was handled; and Mr. Raymond Shaw and his Student Council for the efficient manner in which they handled the ushering and the boys' part of the program.

In athletics our girls' hockey team deserves special mention. The team under the inspirational coaching of Miss Ann Harrington won eleven of its twelve games. Congratulations go to Miss Harrington

and her girls for a fine season.

The various clubs and organizations in the Millbury Memorial High School once again enjoyed pleasant, and in most cases, successful seasons under the guidance and leadership of the following teachers: Girls' Athletics, Miss Ann Harrington; Boys' Athletics, Mr. Martin Roach, Mr. Philip Philip, Mr. James H. O'Leary, Mr. James D. O'Leary and Mr. Hudson Matson; Cheer leaders, Mrs. Ethel Gladstone and Miss Honora Kinniery; the Student Council Mr. Raymond Shaw; the Band, Dr. Warren Freeman and Mr. Vincent Mischitelli; the French Club, Miss Helen Brown; the Science Club, Mr. Thomas McGinn and Miss Joan Shea; the Biology Club, Mr. Richard Kenary; the Junior Red Cross, Mr. Raymond Shaw; the Reflector, Mr. Thomas Hamilton, Miss Margaret Marlborough and Miss Frances Pronski; the Aftermath, Miss Helen Brown and Miss Honora Kinniery; the Dramatic Club, Miss Adrienne Lachapelle and Miss Jean Shea; the Glee Club, Talent Assembly Group, and Organ Class, Miss Katherine Bowe; Public Speaking and Debating, Mr. Richard Greene and Mr. Victor Morano.

Once again the high percentage of attendance for the past year, namely 96.26 percent, attests to the interest and cooperation of both

the pupils and parents of our town.

Report of Mrs. Ellen Clark Cafeteria Manager

We have just completed the fifth year of the operation of the school cafeteria at the Millbury Memorial High School. From January 6 to December 22 there were 52,531 meals served. In addition to these meals 17,397 bottles of milk were sold to pupils who carry their lunch.

Report of Mr. Arthur J. O'Mara Junior High School and Center School Principal

With the opening of school in September, the enrollment at the Millbury Junior High School was 282 pupils. This was an increase of approximately thirty pupils over the enrollment of the previous year.

There was one change in the faculty with Mr. Daniel Carmody as instructor of Industrial Arts replacing Mr. William McCullough, who resigned to accept a position in the Worcester School System. We welcome Mr. Carmody and wish him success in his new position.

The annual spelling contest was held in April with the pupils of the seventh grade participating. Stephen Redmond was declared the winner of the contest which was under the direction of Miss Pauline Lambert.

The pupils of the eighth grade presented the operetta, "On the Range," in the auditorium of the Millbury Memorial High School on April 11th, under the direction of Miss Katherine Bowe. The background and scenery were designed under the direction of Miss Florence Scarpaci and Mr. William McCullough. The parents and friends of the cast enjoyed an evening of delightful entertainment.

A Glee Club was formed in the junior high school this year under the direction of Miss Katherine Bowe. This club will give pupils who are especially interested in singing an extra period a week in glee club work.

The junior high school athletic teams completed very successful seasons with Mr. James D. O'Leary as coach. The basketball team was undefeated, winning nine games. The baseball team won five games and lost two.

In May, the graduating class made the annual trip to Boston to visit historical and educational points of interest in the city. The pupils will long remember the trip as a delightful and interesting experience.

In June, the graduating class of 1958 of the Millbury Junior High School, numbering 122, received their diplomas from Mr. William D. Shea, Superintendent of Schools, at the annual graduation exercises.

Shea, Superintendent of Schools, at the annual graduation exercises.

The keen interest of the parents in the work of their children in school was indicated by the large attendance at Parents' Night, November 10th. It gave a splendid opportunity to parents and teachers to discuss the work of the pupils.

In the Center School, the enrollment in September was 305 pupils. Because of the large number of sixth grade pupils this year, we now have 5 sixth grades and 3 fifth grades.

A new duplicating machine was purchased for the Center School during the year. This has proved to be an excellent aid to the teachers for tests, outlines and projects.

I wish to express my sincere appreciation to the parents and teachers for their kind cooperation during the school year.

Report of Miss Mary Grogan Guidance Counselor

Guidance has been on a full-time basis since the opening of school in

September. The time now available makes possible more counseling with students concerning their school work and their plans for higher education.

In October a Career Night program was held. Students and their parents were invited to learn from representatives of schools and colleges of different types the programs offered by, and the entrance requirements for, their respective schools and, in general, for all schools of the same kind. Junior and senior colleges, schools of business science, schools of nursing, schools of technical and mechanical arts, teachers' colleges and colleges of engineering were repreented. The program proved to be most worthwhile and the response to the program from parents and students was very gratifying.

For many years a battery of tests has been administered to freshmen and juniors. Such a program of testing will be continued. In addition, at the beginning of the school year a diagnostic reading test was given to sophomores, juniors and seniors. The same test had been given to the freshmen while they were still in the junior high school. Now a developmental reading program is being set up to give students the opportunity to work on their own time for the improvement of

basic reading skills—vocabulary, comprehension and speed.

Another guidance activity may well be called to the attention of parents. This program, established three years ago, is carried on one night a week for a full month in the spring during the period that students are choosing their subjects for the next year and filling out elective cards. During that period parents are urged to visit the school to consult with the principal and the guidance director concerning their son's or daughter's program of studies and vocational plans.

Parents are invited to make an appointment with the guidance director at any time that they may wish to consult concerning a

student's progress.

Report of Miss Ann D. Harrington Supervisor of Physical Education—Girls

The program of Physical Education for girls at Millbury High School consists of the students meeting twice a week for four years. The program is of a vigorous nature with a great variety of activity. It is my hope, with this program, to reach each pupil in some phase of physical education. This program is a part of total education, thus aiding in the growth of a strong, healthy, versatile individual.

Team Sports-Games of High Organization: Field hockey, soccer, field ball, speed ball, basketball, volleyball, softball. Dual and Single Sports: Archery, table tennis, tumbling and gymnastic, bowling, dancing, badminton, tennis, field and track.

Physical fitness is another important phase of the physical education program, standards being set by the country and a comparison

being made.

The junior high school program is vastly inadequate due to poor facilities. The lack of adequate outdoor and indoor play area is a great obstacle to overcome. The program, therefore, has to make allowances for this. The activities have to be modified and the majority of the time is spent on lead-up games in preparation for the high school program.

Intra-murals are offered in basketball, volleyball, and tennis for all who are interested. A great deal of interest is shown through the large

number who participate in the activities.

In varsity competition the girls made an excellent showing. The town should be very pleased with their achievements in the highly skilled sports.

Report of Mr. Hudson L. Matson Supervisor of Physical Education—Boys

The physical education department strives for a program whereby the individual, through various activities, will develop the health and strength of the organic system of his body. If a person's organic system is functioning properly he will be able to take part in more mental as well as physical activities and be a healthier person. Throughout the entire program a great deal of stress is placed on the importance of good health and how to maintain it. The individual also learns his almost unlimited capabilities to succeed in work and play. By developing a good sound body, a person has taken the first step toward success in any field he chooses. That is why our physical education stresses physical fitness so strongly.

Physical fitness is a vital part in everyone's daily life. In developing physical fitness we develop individuals that are also mentally, emotionally and socially fit. In this way they are being prepared to

bring about a better society of people.

The activities that will be introduced during the year will enable the student to insure skills, responsibilities and coordination essential to an active life and accident prevention. The activities that will be presented will consist of fundamentals, game participation, competition, leadership, growth and development. The program will be introduced in such a way that the student will learn skills and techniques that have lasting value and can be brought about in the following activities: football, soccer, volleyball, basketball, gymnastics, wrestling, track, softball and individual games to create a more competitive interest.

It is my sincere belief that this program will be of great importance in fulfilling one's educational pattern and will stress values that will also be carried on throughout one's entire life.

Report of Mrs. Jane S. Dakin Supervisor of Home Economics

All freshmen girls are enrolled in the Home Economics classes which provide practical learning experience with a variety of goods, services and equipment used in the home. The program is concerned with assisting the girls to develop ability to carry their home responsibilities in relation to foods, clothing, good grooming and other home activities.

Foods Unit—Equipment:

1. In teaching the use, care and selection of equipment, it has been found that fitting it with other units of teaching as the need arises is a more satisfactory way. For example, in meal planning, there is an immediate need to teach about accurate measurements, spoons, cups and other kitchen devices. Electric and gas ranges come in for study too—the use of ranges, which includes the use of top burners or units, the oven and broiler. Care and cleaning of the equipment

are a part of the training too.

2. Nutrition: Teaching the concepts of nutrition appropriate to this age group is becoming a real challenge. The motivation of youngsters to consider their present food habits and to change them as needed has become a problem of every home economics teacher. In our work with teen-age girls it has been found that too many too often omit breakfast altogether or are satisfied with a cup of coffee and a sweet roll. We find this habit is so deeply ingrained that even when an adequate breakfast is served they refuse to eat it. Through the

study of nutrition we hope the students begin to understand the

dangers of such practices and will endeavor to change them.

3. Meal Planning: Three complete meals in each class are held during the year. The class being divided into planners, those who prepare the food, waitresses or those who serve, guests and clean-up crew. Evaluation is a very important part of this program. Students learn not only from their own mistakes but also those made by others. Regular forms for comments are encouraged and include palatibility, good eye-appeal, efficiency of service and time management, table manners and decorations. Stern self-analysis helps immeasurably to guide the students future attempts measurably to guide the students future attempts.

Clothing Unit—the basic principles of construction patterns, incorporating design, textiles, textile selection and principles of fitting are all taught to the girls. The first construction problems are in cotton. With these areas, the students are encouraged to select garments for construction that are commensurate with their ability.

Good Grooming Unit-A brief unit including the importance of cleanliness are care of the body is undertaken during the school year.

Report of Miss Rose B. Neri Teacher of Junior High School Sewing

The sewing course for junior high school girls prepares them for that phase of home economics in senior high school and promotes better living habits in appearance and wardrobe planning. The first year of any art is the most important, for it is then that students acquire the interest needed for good workmanship and proper application. Preliminary training consists of extensive hand sewing, in order to attain natural handling of sewing tools and fabrics. This knowledge is applied in constructing a sewing kit made up of three articles. Interest is retained by giving the girls a certain responsibility for color selection and design adaptation; the main objective in class is to present instructions in a stimulating manner. Machine stitching is introduced later in the seventh grade; after a comprehensive study, the machine is used in making a small household article.

In the eighth grade the students continue machine stitching

practice while learning numerous sewing seams and techniques. To develop ability for achieving skillful dressmaking and tailoring two projects are undertaken—an apron and a dress for which the commercial pattern is used. More advanced girls progress to a third project of individual choice. Throughout the course of study individuality is stressed commoneing with moderate freedom of engine life. uality is stressed, commencing with moderate freedom of originality in color and gradually reaching a goal of style selection and minor

design alteration to satisfy personal traits.

Report of Mr. Wilmar H. Ela Supervisor of Industrial Arts

The purpose of Industrial Arts is to enable boys who now live in an industrial world and soon will have to cope with it as adults, to become intelligent concerning their industrial environment and to be

able to deal with it effectively, both now and later.

The materials, products, and processes of industry constitute one of the most obstructive factors in modern environment. It is imperative that every boy become intelligent about and be effective in dealing with modern industry and its many products. To produce such intelligence and effectiveness is the primary purpose of Industrial Arts in the junior and senior high schools.

Specific training objectives involved in the purpose of industrial

arts are—the development of efficient work habits, the development of the habit of clear analytical thinking when dealing with mechanical and constructive work, the development of skill in cooperating with others in constructive enterprises, the acquisition of a wide range of skills, knowledge, and appreciation concerning industrial materials, processes, and products, the development of a wide range of tool, machine and drafting skills, the development of safety habits when in the presence of tools, machines and other mechanical devices and equipment, the ability to use effectively one's knowledge in meeting the practical problems of life.

In the general shop the student learns that the manner in which he works on a piece of wood is determined largely on the kind of wood and its characteristics. Pupils learn the types of materials used in the finishing processes. Stains, oils, filler, varnishes, waxes, paints, all bring out certain chemical and physical changes that are desired

in the finished project.

The student learns metal has different qualities of strength, weight appearance, and hardness. Proper skills, knowledge and training are needed to choose, sharpen, set up machines and equipment in order to shape and to fabricate metals.

Emphasis is placed on related work classes where industrial arts math, industrial arts science, and industrial arts mechanical drawing

is taught.

Report of Mr. Daniel C. Carmody Teacher of Woodworking

The industrial arts program on the junior high school level is designed to acquaint the student with woodworking tools, learning their proper use, their principle of operation, and their care and maintenance. Through a project, the student learns about design, construction, and finishing. Industrial methods are discussed, and whenever practical, are used while the project is being made.

The fifth grade students are introduced to woodworking through the medium of model airplanes, boats, and car kits. Here, the student becomes acquainted with the basic woodworking tools. Through a simple project the sixth grade students become familiar with the basic hand woodworking tools. More difficult projects are undertaken in the seventh and eighth grades. The projects are designed so that the student will use all the hand tools and power machines. The power machines are the jig saw, band saw, drill press, lathe, and grinder.

In the sixth grade, the student usually completes two projects. The seventh and eighth grade students complete three or four projects. The number of projects the student completes is based on his ability

and knowledge of the woodworking area.

Report of Miss Katherine M. Bowe Supervisor of Music

Progressing from simple rhythmic tunes in the lower grades to three and four part harmony in the junior and senior high schools, the music program is designed to entertain as well as educate.

In the elementary grades, music is a part of the daily schedule. Rote songs and singing games are greatly enjoyed by the first and second grade children. From the third through the fifth grades note reading and theory of music is taught. The sixth, seventh and eighth grades work on two and three part harmonies. Junior high school students have two music periods a week.

Organ lessons are offered to any student who has a knowledge of instrumental music. One lesson and one practice period is allowed each week.

Report of Dr. Warren S. Freeman Director of Instrumental Music

This past year has been one of steady growth for the instrumental groups in Millbury. Although the number of players in the high school is still smaller than we hope for for a truly representative school band for a high school of our size, the players in the band have been serious in their work and have worked hard to improve their technique and general musical skill. The band group in the elementary and junior high schools is serving as a feeder for the high school and within a few years this feeder system will provide the high school with enough players to make a large, well balanced band.

During the past year we have expanded our instruction program from one to two days per week without any increase is cost to the town. Mr. Lawrence Forand and Mr. William Clemmer serve as instructors and each assists me in certain phases of the overall program. This additional time given by these men makes it possible for each child to have a large amount of individual attention. In the high school, lessons are given during study periods so that no class time is lost by those who take part in the band program. At the junior high and elementary levels, the instruction is given in groups during the school day. The teachers are cooperating by planning their work so that the pupils do not miss any important school work during the band periods.

The school band has made many public appearances during the year and has given a creditable performance each time. We hope to

expand this type of work for the band this year.

We have made slow, steady progress with our instrumental work in Millbury. There is much more to be done, particularly in the high school. This phase of our work will have special attention in the months ahead with the hope that we may bring our high school band up to top standing in our area.

Report of Miss Florence M. Scarpaci Supervisor of Art

The elementary grade art curriculum consists of teaching the fundamentals of color harmony, design, and the recognition of the correct proportions of the human figure, animals and buildings. Our

media here is crayon.

In the junior high school the art work is more individualized and we are able to further study in color harmony, lettering and principles of design on a more advanced scale. At the junior high school level there is a marked change in the art interests of most pupils. There is more interest in craft work than in illustrative work. They like to discover how the composition of a picture is organized in terms of line, dark and light masses, and color harmony.

Our successful Christmas projects and the operetta scenery are proof that our boys and girls understand the subject from a technical

as well as a practical and esthetical point of view.

In the senior high school the pupils are approaching maturity and naturally their art interests reflect this stage of development. Advanced color study, design and lettering are covered. Much interest is shown in photography coloring since the knowledge and experience gained may confidently be applied toward a practical means.

Other projects covered in this age group include ceramics, pastel drawing, charcoal drawing, block printing, styro-foam fantasies, and oil painting. The art display was very successful and our pupils deserve credit for their executive and articstic abilities.

Report of Mrs. Constance J. Dobie Special Class Teacher

The Special Class continues to grow. This year we have ten boys and girls who range in age from seven to eighteen years. Our program still strives to provide individual instruction based on recommendations of our school psychologist. To render our activities meaningful, purposeful and interesting, the child is encouraged to attack a complete problem as a unified whole. In other words, he does not spend his time perfecting one particular skill by formal drill, but secures practice while working on different parts of a unified whole. For instance, the purpose of manual training is to improve muscular coordination, to develop hand skills and to teach dexterity in handling tools rather than to produce an artistic product.

We have acquired a reasonably relaxed situation in our class and continually strive to improve social relationships both in and out of

the classroom.

Report of Richard E. Church, M.D. School Physician

We are in the process of doing the physical examinations of the children in each of the schools. As in the past, the mothers of the first graders have been encouraged to be present at the examination. A high percentage of these mothers do attend each year. I am sure this is profitable for all concerned.

Each of the students is examined before participating in school

athletics. As usual, many minor injuries have been treated.

Report of Miss Anna B. Callahan, R.N. School Nurse

The annual physical examinations were started in September and continued through the fall term. The majority of pupils are in good

health, and the most common defects are carious teeth.

I would like to remind the parents that it is their responsibility for the care of their children's teeth. Good teeth add greatly to the appearance and health of their children. However, parents are very cooperative in regard to this problem. As soon as these examinations have been completed, notices of defects will be sent home.

have been completed, notices of defects will be sent home.

Mrs. Mercedes Gagliardi, R.N., assisted me with the vision test and this work has been completed. The hearing test has been started and I will continue with this work through the remainder of the school year. Seventy-five children were vaccinated at the annual

smallpox clinic which was held in June.

The Board of Health held clinics in May, June and September and most of the Millbury children were immunized against diphtheria,

pertussis and tetanus.

I wish to thank the parents, nurses, teachers, doctors, the Salvation Army and Kiwanis Club for their generous help in maintaining a good health program in our schools.
